[REDACTED]

Sorry it took so long to respond to your question, but we have been doing some digging for more recent reports than the latest ones you have. I heard back from the Department of Justice and Public Safety today and they have told me that there has been nothing produced since 2014. They realize they are behind in their reports and they are working on getting them produced. So I guess I have nothing to send to you at this time.

The Dept. is going to keep us posted about when they will be made ready, and if you like I can let you know. I have absolutely no time frame for any of that though. Let me know if you want me to keep you in the loop.

Thanks,

[REDACTED]

NB Legislative Library

Subject: Locating Resource: New Brunswick Annual Report - Electronic Interceptions

ATTENTION! External email / courriel externe.

Hello,

I hope this email finds you well. I'm a researcher working with the Citizen Lab at the University of Toronto. Our team is currently collecting annual provincial reports on

Electronic Interceptions conducted under Section 195(5) of the Criminal Code. We were previously sent a collection of these reports by your team in 2015 (see attachment). If you could share these same reports from the intervening years (2015-2020), it would be greatly appreciated. Please let us know if there's any other information you'd like us to send along. Looking forward to your reply. Until then, wishing you all the best.

Sincerely,

[REDACTED]
