

(TS//SI//REL) SUSLOC Facilitates Sensitive DSD Reporting on Trade Talks: According to SIGINT information obtained by DSD, the Indonesian Government has employed a US law firm to represent its interests in trade talks with the US. On DSD's behalf, SUSLOC sought NSA OGC guidance regarding continued reporting on the Indonesian government communications, taking into account that information covered by attorney-client privilege may be included. OGC provided clear guidance and DSD has been able to continue to cover the talks, providing highly useful intelligence for interested US customers.
