

TOP SECRET STRAP1 AUS/CAN/NZ/UK/US EYES ONLY

**2Q NAC Business Plan
Review**

July – September 2011

TOP SECRET STRAP1 AUS/CAN/NZ/UK/US EYES ONLY

Offensive Cyber status:

This theme of work was assessed as RED last quarter. Work on the requirements to undertake Network Analysis in support of Offensive Cyber operations on the original two countries (Iran and Argentina) has progressed this quarter, with additional work done on Libya in support of the RARE event. MHS-NAC have supported to good effect OP-WHICHED, an INOC-led operation looking at an Iranian Naval Base near the straits of Hormuz.
